**Government of India**  
**Ministry of Development of North Eastern Region**  
**(NLCPR - Wing)**

\*\*\*\*\*

**Minutes of the 153<sup>rd</sup> meeting of NLCPR Committee held on 23.08.2017 under the Chairmanship of Shri Naveen Verma, Secretary, Ministry of Development of North Eastern Region in Committee Room No.243A, Vigyan Bhawan Annexe, New Delhi.**

The meeting started with the welcome note of the Chairman followed by a brief presentation by Joint Secretary, DoNER. Thereafter the representatives of the State Governments made their individual submission / presentation before the Committee on the projects posed to the Ministry for funding under NLCPR scheme on the recommendations of their State Level Empowered Committees (SLECs). The representatives of Karbi Anglong Autonomous Territorial Council (KAATC) also made separate presentation for the projects for identification and retention under KAATC package.

Accordingly, the Committee considered the state-wise projects for retention and sanction as under:-

**MANIPUR**

The Committee discussed the only project proposal ‘**Composite Water Supply Scheme at Thongju and its adjoining areas, at Imphal East District in Manipur (cost-Rs 25.92 crore)**’ submitted by State Govt. of Manipur.

The NLCPR Committee in their previous meeting held on 7<sup>th</sup> July, 2017 had discussed the following three projects, which were recommended by the SLEC, Govt. of Manipur, and was of the opinion to retain these proposals in principle but however suggested to State Government to prioritise these projects with revision of scope of work commensurate to their balance entitlement of Rs 25.74 crore.-

- (i) Construction of Model School Building for Langmeidong Higher Secondary School, Langmeidong (Estimated cost Rs.10.00 crore).

(ii). Preservations & Promotion of Heritage Tourism at Koubru, Ingoulok, Wangbrel, Thangjing, Nongpok Ningthou, Marjing, Ibudhou Pakhangba, Hannaching and Pan Santhong in Manipur (Estimated cost Rs.45.00 crore).

(iii). Establishing a Multi-Skill Development Institute in Manipur by Upgradation/Strengthening of existing it is in phased manner (Estimated cost Rs.20.00 crore)

However, the State Govt. of Manipur has recommended another project **“Composite Water Supply Scheme at Thongju and its adjoining areas, at Imphal East District in Manipur (cost-Rs 25.92 crore)**, for retention without recommendation of SLEC. The Committee observed that the proposal is to augment water supply in 6 different zones and this could be seen as clubbing of 6 augmentation projects in different locations as geo-coordinates would be different .. Therefore, the committee was of the view that the comments of Department of Drinking Water and Sanitation may be sought on whether of this project could be seen as a single project or clubbing of sub-projects. Meanwhile the State Government may also examine this aspect and give their views with the recommendation of the SLEC.

## **MIZORAM**

### ***(A) PROJECTS FOR RETENTION***

The entitlement of Mizoram state for the financial year 2016-17 was Rs. 217.26 crore, out of which 11 projects costing Rs. 123.98 crore have already been retained by the NLCPR Committee. Out of these 11 retained projects, 3 projects costing Rs. 20.46 Crore fall in the ADC area which comes out to be 9.41% of the entitled amount. Only one project of ADC area with estimated cost of Rs. 14.56 crore has been proposed and total amount comes out to be Rs. 35.02 crore which is approx. 16% of the total entitled amount. The NLCPR Committee observed that the projects of ADC Area are to be retained to the extent possible 25% of their entitled amount. Further, the Committee was of the view that the location of the projects shall be

defined by the geo-coordinates and each project should ideally have one geo-coordinate or coordinates in continuation like in the case of road project. Keeping this view in background, the Committee discussed the project proposals submitted by the State Govt. of Mizoram for **retention** and after due deliberation the Committee recommended the followings:-

(Rs. in crore)

S. No.	Name of the project	Cost	Remarks
1	Construction of Govt. Aizawl College new campus building at Mualpui, Aizawl, Mizoram	12.00	The NLCPR Committee retained the proposal in-principle with following conditions:- (a) The scope of work in DPR could focus on augmentation of infrastructure for classrooms and essential services like Electric supply, water supply, etc. and the same to be ensured by SLEC while approving the DPR. (b) The funds provided under RUSA scheme of MoHRD and the possibility of additional funding can also be indicated in the composite DPR.
2	Upgradation of Jawaharlal Nehru 100-Bedded Hospital at Serchhip	51.75	The NLCPR Committee after due deliberation decided to refer the proposal to MoHFW for funding under their existing schemes. If proposal is not considered by MoHFW due to paucity of funds, MoHFW may take up the case with Ministry of DoNER so that it can be further be taken up with the Ministry of Finance to enhance the allocation of the Ministry of Health for NE region.
3	Construction of Institute of Human Behaviour & Allied Sciences (100 Bedded Mental Hospital)	72.19	The NLCPR Committee after due deliberation decided that the proposal be sent to MoHFW to explore feasibility for funding under their existing scheme first. In case funds are not made available by MoHFW, a proposal for additional 24 beds and medical equipments in the existing

			premises may be prepared by the State Government , which would be referred to the Ministry of Health and Family Welfare for their comments before consideration by the Committee. No other auxiliary infrastructure like staff quarters, etc. shall be catered for.
4	NIT Water Supply Scheme	6.83	The NLCPR Committee after due deliberation keeping in view the interest of public at large recommended for retention of the project.
5	Construction of 33 kv D/C line tower from 3 MW Kautlabung SHP to Thenblum 33 kv Sub-Station (17 kms)	7.82	Representative of Line Ministry confirmed that no such proposal is under their consideration and recommended to be considered under NLCPR scheme. The State Government brought out that Sub-Station at Thenbung is retained by NEC for Rs 2.71 Crore. The NLCPR Committee after due deliberation recommended for retention of the project subject to the condition that SLEC, while approving the DPR may take composite view of the electric supply system including substation at Thenblum and Transmission Line feeding the power supply to the substation. State Government was advised that in future projects of construction of Sub-Station and Transmission Line may be posed as a composite proposal, either to NLC or MDONER in case funds from Ministry of Power are not available.
6	Improvement of Distribution System within Kolasib District	6.43	The Representative of Ministry of Power brought out the proposed work has already been sanctioned by their Ministry. Moreover, the NLCPR Committee opined that Improvement / maintenance work will not be considered. State Government had also proposed to withdraw the proposal.
7	Improvement of Distribution	6.12	The Representative of Ministry of

	System within Mamit District		Power brought out the proposed work has already been sanctioned by their Ministry. Moreover, the NLCPR Committee opined that Improvement / maintenance work will not be considered. The State Government also withdrew the proposal.
8	Construction of Office Building for SP Traffic, Aizawl	5.05	The NLCPR Committee after due deliberation recommended that the projects, which are in the larger interest of public, will be given priority since the proposals recommended by SLEC were higher than the normative allocation.
9	Construction of Housing Complex at Civil Hospital, Lunglei	39.91	The NLCPR Committee after due deliberation recommended that the projects, which are in the larger interest of public, will be given priority since the proposals recommended by SLEC were higher than the normative allocation.
10	Infrastructural Requirement of Mizoram Armed Police	5.25	The NLCPR Committee after due deliberation recommended that the projects, which are in the larger interest of public, will be given priority since the proposals recommended by SLEC were higher than the normative allocation.
11	Construction of Chakhei to Siasi Road	14.56	During the presentation it was brought out the project falls in ADC area (6 <sup>th</sup> Schedule) and is on the border of Myanmar which is good to facilitate trading. The NLCPR Committee after due deliberation recommended for retention of the project subject to the condition that Road will be constructed as per IRC code / PMGSY specifications having carriage width of 3.75m and DPR will be prepared by ADC and shall be sent for their vetting to MoRTH before consideration by SLEC. The cost of the project will depend on specifications and the project stands retained for the arrived cost as vetted by MoRTH.

12	Strengthening and Improvement of Fire Stations in Southern Mizoram	7.96	The NLCPR Committee observed that the proposal is having two projects at different locations, i.e. Lawngtlai and Saiha and it was recommended to retain these two cases separately for locations at Lawngtlai and at Saiha as adequate fire services are not available in remote locations. The Committee was of the view that these two project proposals may be referred to MHA for vetting the type & specifications of equipments to be provided before consideration by NLCPR Committee.
13	Infrastructural Development of Labour, Employment & Industrial Training Department	10.00	The State Government presented that it is not only for office but serving larger public interest for youth. However, the NLCPR Committee observed that the concept paper needs to bring this out clearly.

**(B) PROJECTS FOR SANCTION**

**(i) Construction of Teachers Training Complex, Lunglei.**

The Committee discussed the above project which was retained in the NLCPR Committee in its 148<sup>th</sup> meeting at the cost of Rs. 10.40 crore. State Govt. of Mizoram forwarded the SLEC recommendation along with project Appraisal Report for sanction of this project at the Cost of Rs. 10.40 crore.

After detailed deliberations, the Committee agreed to recommend the project for sanction at the cost of Rs. 10.40 crore.

**(ii) Construction of Students Hostel at Aizawl in respect of Chakma Autonomous District Council.**

The Committee discussed the above project which was retained in the NLCPR Committee in its 148<sup>th</sup> meeting at the cost of Rs. 6.02 crore. State Govt. of Mizoram forwarded the SLEC recommendation along with project Appraisal Report for sanction of this project at the Cost of Rs. 5.65 crore subject to confirmation of Land Availability. The State Government has furnished the Land Availability Certificate.

After detailed deliberations, the Committee agreed to recommend the project for sanction at the cost of Rs. 5.65 crore.

**(iii) Strengthening of Fire & Emergency Services, Mizoram (in Champhai, Lunglei & Kolasib Districts).**

The Committee discussed the above project which was retained in the NLCPR Committee in its 148<sup>th</sup> meeting at the cost of Rs. 10.00 crore. State Govt. of Mizoram forwarded the SLEC recommendation along with project Appraisal Report for sanction of this project at the Cost of Rs. 10.00 crore subject to the condition that the write-up portion of the DPR would be recast to make it comprehensive and include duty stations with the approved cost of Rs. 10.00 crore only.

After detailed deliberations, the Committee observed that it is a case of clubbing of three projects at different locations. A decision was taken to process these projects separately and refer to MHA for their comments on the necessity and vetting of type and specifications of equipments to be provided before consideration by NLCPR Committee for sanction.

**(iv) Construction of Mini Sports Complex, Sakawrdai.**

The Committee discussed the above project which was retained in the NLCPR Committee in its 148<sup>th</sup> meeting at the cost of Rs. 3.50 crore. State Govt. of Mizoram forwarded the SLEC recommendation along with project Appraisal Report for sanction of this project at the Cost of Rs. 3.50 crore.

After detailed deliberations, the Committee agreed to recommend the project for sanction at the cost of Rs. 3.50 crore.

**(v) Construction of Dam Reservoir and Development of Recreation centre at Keilungliah, Champhai.**

The Committee discussed the above project which was retained in the NLCPR Committee in its 148<sup>th</sup> meeting at the cost of Rs. 20.64 crore. State Govt. of Mizoram forwarded the SLEC recommendation along with project Appraisal Report for sanction of this project at the Cost of Rs. 19.88 crore subject to following conditions :-

(a) MoU between the State Govt. and inhabitants of the area for provision of land free of cost and

(b) No Objection certificate from Forest Department.

After detailed deliberations, the Committee observed that the SLEC, Govt. of Mizoram recommended the project conditionally for sanction. An opinion was evolved that the SLEC, Govt. of Mizoram should clarify whether the observations of NLCPR committee, are complied for or not.

The NLCPR Committee was of the view that in case, the officers from MDONER are not in a position to attend SLEC due to exigencies, he/she will participate in the meeting through video conferencing.

**(C) PROJECTS FOR RETENTION AND SANCTION UNDER SWACHHTA ACTION PLAN (SAP)**

The NLCPR Committee discussed the following projects submitted by SLEC, Govt. of Mizoram for sanction under Swachhta Action Plan (SAP)

<b>S. No</b>	<b>Name of the project</b>	<b>Cost (Rs. in crore)</b>
(a)	Solid Waste Management at Lunglei	6.00
(b)	Solid Waste Management at Serchhip	4.00
<b>For Financial Year 2018-19</b>		
(c)	Solid Waste Management at Mamit	4.00
(d)	Solid Waste Management at Champhai	6.00

These projects were not retained earlier. The NLCPR Committee after due deliberation, decided to retain and sanction the project "Solid Waste Management at Lunglei" with cost estimate of Rs. 6.00 crore as an pilot project. It was also suggested to use other technologies, like, NISARGRUNA.

**NAGALAND**

1. The project **Construction of New High Court Complex at Kohima Phase-I, cost Rs. 102.00 crore** was earlier considered in 151<sup>st</sup> meeting of NLCPR Committee held on 8<sup>th</sup> May, 2017 wherein the Committee was appraised that the State Government had started the project with funds availed under Special Plan Assistance (SPA) granted by the erstwhile Planning Commission. The funds so received were utilised for site development, landscaping, protection & retaining walls, security fencing, approach road etc. Construction of the main High Court

Building had also been started. The Committee had been earlier informed that since FY 2015-16, the window for availing funds by the State under ACA/SPA was reduced. On the assertion of State Govt. that actual inflow has been lesser than pre - FFC award period and the State was unable to continue with the vital project from their own meagre resources, the Committee had requested the State Government to furnish details of the funds received by the State Government pre- and post - devolution of funds by NITI Aayog and refer the matter to Ministry of Finance for their comments on whether this project could be considered for retention.

In response, the State Government vide its letter no. PLN/NLCPR/SLEC-2016 dt. 6/7/2017 submitted details of the funds received by the State Government pre- and post - devolution of funds by NITI Aayog.

The above facts were placed before the Committee for consideration. The Committee deliberated upon all aspects of the project proposal and the details of funds received by the State Government pre- and post - devolution of funds by NITI Aayog. The Committee noted that, the balance entitlement of the State Govt. for new projects under NLCPR for FY 2016-17 is Rs. 10.19 crores only. The Committee recommended that the comments of Ministry of Finance may be obtained on utilization of funds under the NLCPR Scheme for the project "Construction of New High Court Complex at Kohima". In any event, given the entitlement for new projects is Rs. 10.19 crore, the Committee recommended the standalone components of the project for retention viz.

- a) Construction of Residence for Hon'ble Chief Justice, cost - Rs. 2.59 crores
- b) Construction of Residences for Justices of High Court (6 blocks), cost - Rs. 11.95 crores.

### **MEGHALAYA**

1. The project "Construction of road from village Lamyrsiang to connect Muliat - Mookhain Road (East Jaintia Hills District)" at a cost of

Rs. 15.00 crores was retained in the 148<sup>th</sup> Meeting of the NLCPR Committee held on 23<sup>rd</sup> January, 2017, subject to the condition that the State Government will obtain confirmation from the Ministry of Rural Development (MoRD) whether the project is covered under PMGSY scheme or not. Now, both the MoRD and PWD, Govt. of Meghalaya have confirmed that the project is neither covered nor qualified to be covered under PMGSY. The SLEC, Govt. of Meghalaya has techno-economically vetted and recommended the project for sanction at its meeting held on the 26<sup>th</sup> July, 2017.

In view of the above, the NLCPR Committee discussed the project and recommended it for sanction. However, in view of the facts that the entitled amount for retention/sanction of new projects for the FY 2016-17 in respect of Meghalaya state has already been exhausted, and that comments regarding non-coverage of the proposed project under PMGSY was received late, the Committee recommended to use the overall savings under NLCPR scheme for the project.

#### **KAATC:**

It was brought to the notice of NLCPR Committee that a separate Committee under the Chairmanship of JS (NLCPR) has been constituted by Ministry of Home Affairs for identification of the remaining projects for balance amount of funds available under the KAATC Package where the Secretaries of Home & Politics, Hill Area Development, Government of Assam and Principal Secretary, KAATC are members alongwith representatives of the Line Ministries. To avoid further delay in implementation of the earmarked Package under the MoS as per Accord, the exercise of identification and retention were undertaken simultaneously during the meeting where members of both the Committees were present.

It was briefed to the Committee that out of the total Package of Rs.350.00 Crore, the projects costing Rs.274.37 Crore have already been taken up for funding earlier and remaining balance available for taking up new projects is only Rs 75.63 crore. However, during the presentation, the Committee noted that against the

remaining fund of Rs.75.60 crore, KAATC through Government of Assam has submitted projects costing Rs.184.36 crore. Therefore, the Committee requested Principal Secretary, KAATC to present details of only those projects for discussion which could be taken up against the balance fund under the Package. Accordingly, she gave detailed presentation of some of the projects from the proposed list which the Committee considered and deliberated as under:-

(i) The Committee observed that the projects of District Libraries and Museums proposed to be constructed at Diphu and Hamren should be in one campus at each town as their larger objectives are complementary and forms part of broader cultural activities. The Committee also took into account the fact of availability of bamboo in the area in abundance. In this background the Committee advised the Council that Bamboo materials may be used on large scale in construction of these facilities which will not only be eco-friendly but will also give a boost to the Bamboo Industry adding value to livelihood activities since large number of people in both the areas are engaged in Bamboo Plantation. The Committee stated that the projects of library and museum at Diphu and Hamren together with upcoming project for recreation of Diphu town lake and the project for preservation, protection and improvement and cleaning for the Diphu river would form an integrated shelf of project with due objective of promoting Diphu as a major tourist destination where Diphu festival is organized every year in a big way. All these projects would constitute different components of the tourist circuit linking Diphu to Dimapur, another major tourist attraction centre during Hornbil festival which is only an hour's drive from Diphu which would promote eco-tourism and would also encourage Homestay. With these observations, following projects were recommended by the Committee for **retention**:-

**(a) Construction of bamboo made single storey District Library Building with Auditorium Hall at Diphu (estimated cost of Rs 6.00 crore)**

**(b) Construction of bamboo made single storey District Library Building with Auditorium Hall at Hamren (estimated cost of Rs 6.00 crore)**

(c) **Construction of bamboo made bamboo made single storey District Museum building with modern amenities at Diphu (estimated cost of Rs 5.00 crore)**

(d) **Construction of bamboo made single storey District Museum building with modern amenities at Hamren (cost- Rs 5.00 crore).**

(e) **Development of Diphu Town lake for recreation (cost-Rs 16.00 crore)**

(f) **Preservation, protection and improvement & cleaning of Diphu river at Diphu (cost – Rs. 10.00 crore)**

In case of Diphu river the Committee requested the Principal Secretary, KAATC to work out the cost of installation of Sewage Treatment Plant in the catchment area to check the source of pollution of the river and incorporate these components with costs while preparing DPR and revise the overall cost of the project accordingly. The Committee also advised KAATC to publicize Diphu festival through electronic and print media and prepare a long term composite proposal to develop Diphu as a tourist hub after due consultation with the stakeholders in tourism sector.

(ii) The Committee discussed the project **“Special Economic Project for Development of Karbi Handloom Weavers (Cost-Rs.5.00 Crore)** and recommended for **retention** subject to the condition that the Council may explore the possibility of implementing the project on the lines of cluster and federation and also having a tie-up with NEIHD for backward linkages so that the project may maximize the livelihood activities of the artisans.

(iii) Thereafter the Committee discussed following projects and suggested KAATC to make a consolidated proposal against the balance value of funds available under the package for creating infrastructure for setting up of processing plants for agro-horti produce like ginger, medicinal plants, bamboo etc. and creating rearing and marketing facilities for piggery and pork processing etc. for developing a complete value chain for livelihood activities:-

- (a) Extensive rubber plantation programme under Karbi Anglong (cost Rs.3.25 crore)
- (b) Natural resources management schemes in west Karbi Anglong District (cost Rs.6.99 crore)
- (c) Establishment of clean meat selling booth for pork, mutton/chevon & chicken at different markets of Karbi Anglong (cost Rs.5.50 crore)
- (d) Strengthening of Agriculture Training infrastructure in Karbi Anglong District (cost Rs.5.50 crore).

For this purpose, the Committee advised KAATC to arrange a visit of their officials of agriculture and veterinary departments to agricultural institutes at Jorhat or Guwahati and veterinary institute at Rani to discuss various aspects of livelihood activities relating to these sectors before making a composite proposal. The Committee also suggested to make best use of existing infrastructure of Krishi Vigyan Kendras for training purposes.

(iv) At the end of discussions, Principal Secretary, KAATC requested for dropping of the projects viz. **(a) construction of M&BT of road from Mokoliumto Khatkasia L=12.75 Km(cost -Rs.931.00 Lakh** and **(b) Kumraikoraa-Lagardang road L=18.00 km)(cost- Rs.1600.00 Lakh)** retained earlier informing that these projects have already been taken up under PMGSY scheme of Ministry of Rural Development. The Committee agreed to the request for dropping these projects.

The meeting ended with thanks to the Chair.
